## **FINAL OFFICE ACTION**

1. **This application has been reassigned to Technology Center 1700, Art Unit 1774 and the following will apply for this application:**

Please direct all written correspondence with the correct application serial number for this application to **Art Unit 1774**.

Telephone inquiries regarding this application should be directed to the Electronic Business Center (EBC) at cannon or 1-866-217-9197 or to the Examiner at (571) 272-1139. All official facsimiles should be transmitted to the centralized fax receiving number 571-273-8300.

### ***Priority***

2. Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d). All of the CERTIFIED copies of the priority documents have been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).

### ***Drawings***

3. The replacement drawings filed 23 DEC 2010 are objected to because of the following informalities:

- a. the extraneous "8" and "8' " in Fig. 8 should be removed. The drawings are otherwise acceptable.

### **INFORMATION ON HOW TO EFFECT DRAWING CHANGES**

#### **Replacement Drawing Sheets**

Art Unit: 1774

Drawing changes must be made by presenting replacement figures which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments, or remarks, section of the amendment. Any replacement drawing sheet must be identified in the top margin as "Replacement Sheet" (37 CFR 1.121(d)) and include all of the figures appearing on the immediate prior version of the sheet, even though only one figure may be amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin.

### **Annotated Drawing Sheets**

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheets must be clearly labeled as "Annotated Marked-up Drawings" and accompany the replacement sheets.

### **Timing of Corrections**

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings MUST be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

### ***Specification***

4. The substitute abstract filed 23 DEC 2010 is disapproved because it is not submitted on a separate sheet – required for scanning into the IFW system.
5. The title is acceptable.

***Claim Rejections - 35 U.S.C. § 112, second paragraph***

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Newly filed claims 35-44 and 50 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 25, line 3: "the equipment transfer vessel" lacks antecedent basis – replace with --the equipment holding vessel--.

Claim 36, line 4 is worded in an awkward and confusing manner: "the top end of the sleeve opposite the shaft opening and open".

Claim 38, line 2: "the inlet port" lacks antecedent basis.

Claim 40, line 4: "the inlet port" lacks antecedent basis.

Claim 41, line 2: "the recirculation vessel" and "the inlet port" lacks antecedent basis.

Art Unit: 1774

Claim 43, line 4 is worded in an awkward and confusing manner: "the top end of the sleeve opposite the shaft opening and open".

Claim 44, line 4: "the inlet port" lacks antecedent basis.

Claim 50, line 4: "the second holding vessel" lacks antecedent basis.

8. Each pending claim should be thoroughly reviewed such that these and any other informalities are corrected so the claims may particularly point out and distinctly claim the subject matter which applicant regards as the invention, as required by 35 U.S.C. § 112, second paragraph.

#### ***Allowable Subject Matter***

9. Claims 35-44 and 50 would be allowable if rewritten or amended to overcome the rejection under 35 U.S.C. § 112.

10. Claims 31-34, 45-49, and 51-53 are allowable over the prior art of record.

#### ***Response to Amendment***

11. Applicant's arguments with respect to the pending claims have been considered but are deemed to be moot in view of the grounds of rejection necessitated by amendment.

***Conclusion***

12. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).
